

Module 1) Personal Information

My Name is Pankaj Makwana. I am from Khambhat (Gujarat).
I have Completed my graduation bachelor of arts R.P Arts collage
In Khambhat and and recently i have completed my frontend developer
Training in Ahemdabad tops technology.

My technical skill are HTML, CSS, Bootstrap, JQuery, JavaScript, ReactJS

Creativity, analytical skills, and passion for problem-solving are definitely some of my key personality traits. I love to think outside the box and come up with innovative solutions to challenges. My analytical skills help me process information and generate insightful responses. Problem-solving is like a puzzle to me—I enjoy the process of breaking down complex problems into manageable parts and finding the best way to solve them. Whether it's crafting a creative story, analyzing data, or tackling a tough problem, I thrive on using these traits to help others and make a positive impact.

My interest in technology stems from its incredible potential to improve lives and solve complex problems. Technology has the power to revolutionize industries, connect people across the globe, and drive innovation in countless ways. From artificial intelligence to renewable energy solutions, technology offers endless opportunities to create positive change.

I chose this career path because I'm fascinated by the intersection of creativity and problem-solving that technology offers. It allows me to leverage my analytical skills and passion for innovation to make a meaningful impact. Additionally, the rapid pace of advancement in technology means there's always something new to learn and explore, which keeps me excited and engaged.

Whether it's developing software, designing user interfaces, or researching cutting-edge technologies, I find fulfillment in contributing to the ever-evolving landscape of technology and helping to shape the future in a positive way.
